Restrict Unwanted Telephone Solicitations

In 2003, the Do-Not-Call Act was signed into law. This legislation allowed for the establishment and enforcement of a national Do-Not-Call Registry giving consumers a choice regarding telemarketing calls. If your number is listed on the registry, all commercial telemarketers, except for businesses with whom you have an existing relationship or certain non-profit and political organizations, are not allowed to call you.

Consumers may register their residential telephone number, including wireless numbers, on the national Do-Not-Call Registry by telephone or by Internet at no cost. **To register by telephone**, **consumers may call 1-888-382-1222**. For TTY, call 1-866-290-4236. You must call from the phone number you wish to register. You can register on-line for the national Do-Not-Call Registry via the internet at www.donotcall.gov.

Inclusion of your telephone number on the national Do-Not-Call Registry will be effective 31 days after registration. Your number will remain on the registry permanently. You are allowed to remove your number from the registry at any time.

- Aggregate Customer Information.

USE OF CPNI IN GENERAL

- A. <u>Duty</u>. The Company has a duty to protect the confidentiality of its Customers' CPNI. The Company must disclose CPNI upon affirmative written request by the Customer, to any person designated by the Customer. See Appendix 4 for Sample Form.
- B. <u>Use of CPNI Obtained from Company's Customers</u>: Except as otherwise permitted as described in this Manual, when the Company receives or obtains CPNI by virtue of its provision of a Telecommunications Service, it can only use, disclose, or permit access to individually identifiable CPNI in its provision of:
 - 1. The Telecommunications Service from which the information is derived; or
 - 2. Services necessary to, or used in, the provision of the Telecommunications Service, including the publishing of directories.
- C. <u>Use of CPNI Obtained from Other Carriers</u>: When the Company receives or obtains CPNI from another Carrier for purposes of providing any Telecommunications Service, it shall use such CPNI only for such purpose, and not for its own marketing efforts.
- D. Use of Aggregate Customer Information.
 - Aggregate Customer Information is collective data that relates to a group or category of services or Customers, from which individual Customer identities and characteristics have been removed.

 - 5. The Company may state in the notification that the Customer's approval to use CPNI may enhance its ability to offer products and services tailored to the Customer's needs. The Company also may state in the notification that it may be compelled to disclose CPNI to any person upon affirmative written request by the Customer.
 - 6. The Company may not include in the notification any statement attempting to encourage a Customer to freeze third-party access to CPNI.

 - e. The Company must make available to every Customer a method to opt-out that is of no additional cost to the Customer and that is available 24 hours a day, seven days a week. The Company may satisfy this requirement through a combination of methods, so long as all Customers have the ability to opt-out at no cost and are able to effectuate that choice whenever they choose.
- C. Opt-In Notice Requirements.

The contents of any Opt-In Approval notification must comply with the requirements described in Section 8.A., above.

NOTICES REQUIRED TO OBTAIN APPROVAL TO USE CPNI (CONT'D)

- Notice Requirements Specific to One-Time Use of CPNI.
 - The Company may use oral notice to obtain limited, one-time use of CPNI for inbound and outbound Customer telephone contacts for the duration of the call.

If the Customer does not provide a password, or does not wish to create a password, the Company may only disclose Call Detail Information by sending it to the Customer's Address of Record, by calling the Customer at the Telephone Number of Record (rather than using Caller ID), or by providing it in person upon presentation of a Valid Photo ID matching the Customer's Account Information.

The Company may supply the PIN to the Customer by a Company-originated voicemail or text message to the Telephone Number of Record, or by sending it to an Address of Record so as to reasonably ensure that it is delivered to the intended party.
 - c. The Company is not required to create new passwords for customers who already have a password, even if the password uses Readily Available Biographical Information. However, the Company must not prompt the Customer for Readily Available Biographical Information, and any back-up authentication method cannot use Readily Available Biographical Information.
 - 4. <u>Establishment of Back-up Authentication Methods</u>. The Company may create a back-up Customer authentication method in the event of a lost or forgotten password. The back-up Customer authentication method may not prompt the Customer for Readily Available Biographical Information, or Account Information.  - 5. Reauthentication. If a Customer cannot provide the correct password or the correct response for the back-up Customer authentication method, the Customer must establish a new password.

- Notification of Account Changes. The Company must notify a Customer immediately whenever an authentication password, Customer response to a back-up means of authentication for lost or forgotten passwords, online account, or Address of Record is created or changed.
 - a. This notification is not required when the Customer initiates service, including the selection of a password at service initiation.
 - b. This notification may be through a Company-originated voicemail or text message to the Telephone Number of Record (not caller ID), or by mail to the Address of Record, and must <u>not</u> reveal the changed information or be sent to the new Account Information.
 - c. A change of address should be mailed to the former address, rather than the new address.
- 7. <u>Business Customer Exemption</u>. The Company may bind itself contractually to authentication regimes other than those described in this Manual for services they provide to business Customers that have both a dedicated account representative and a contract that specifically addresses the Company's protection of CPNI.

 - 1. The Company will take reasonable steps to protect CPNI databases from hackers and other unauthorized attempts by third parties to access CPNI.

 - b. If the Company believes that there is an extraordinarily urgent need to notify any class of affected Customers sooner than otherwise allowed under Paragraph a. immediately above, in order to avoid immediate and irreparable harm, it shall so indicate in its notification and may proceed to immediately notify its affected Customers only after consultation with the relevant investigating agency. The Company shall cooperate with the relevant investigating agency's request to minimize any adverse effects of such Customer notification.

- D. Notification of Customer Proprietary Network Information Security Breaches (Cont'd).
 - C. If the relevant investigating agency determines that public disclosure or notice to Customers would impede or compromise an ongoing or potential criminal investigation or national security, such agency may direct the Company not to so disclose or notify for an initial period of up to 30 days. Such period may be extended by the agency as reasonably necessary in the judgment of the agency. direction is given, the agency shall notify the Company when it appears that public disclosure or notice to affected Customers will no longer impede or compromise a criminal investigation or national security. The agency will provide in writing its initial direction to the Company, any subsequent extension, and any notification that notice will no longer impede or compromise a criminal investigation or national security and such writings shall be contemporaneously logged on the same reporting facility that contains records of notifications filed by Carriers.
 - 4. After the Company has completed the process of notifying law enforcement as described in Paragraphs 3.a 3.c. above, it shall notify Customers of the Breach.

The Company must maintain a record, electronically or in some other manner, of any Breaches discovered, notifications made to the USSS and the FBI pursuant to the above paragraphs, and notifications made to Customers. The record must include, if available, dates of discovery and notification, a detailed description of the CPNI that was the subject of the Breach, and the circumstances of the Breach. The Company must retain the record for a minimum of 2 years.

The certificate must be signed by an officer (i.e., the President, V.P., Secretary) of the Company. Electronic copies of the Certificate and cover letter may be obtained from the Telecommunications Association of Michigan.

The FCC's revised CPNI rules state that a carrier must file a "compliance certificate" each year that addresses compliance with the FCC's CPNI regulations, along with:

- A "statement accompanying the certificate" to explain how its operating procedures ensure compliance with the FCC's CPNI regulations;
- An explanation of any actions taken against data brokers; and
- A summary of all Customer complaints received in the past year concerning the unauthorized release of CPNI.

The attached Certificate of Compliance addresses these subjects in a single document. Also attached is a sample cover letter to accompany the filing.

Simply filing the certificate is not enough. Your Company must make sure that it actually engages in the practices discussed in the Certificate before signing and filing it.

Below are the procedures for filing. Electronic filing is recommended unless the Certificate contains confidential information on the Company's method of combating pretexting (See Paragraph 16 of the Certificate; consultation with legal counsel is advisable). ELECTRONIC PAPERLESS FILING:

The easiest way to file is electronically through the FCC's Electronic Comment Filing System (ECFS): http://www.fcc.gov/cgb/ecfs/. Put both the cover letter and Certificate in a single PDF. Click on "Submit a Filing" on the right side of the screen. In completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and the proceeding number which is 06-36. Under "Document Type," select "Statement."

Additional electronic copies must go to: Byron McCoy, Telecommunications Consumers Division, Enforcement Bureau, Federal Communications Commission, byron.mccoy@fcc.gov; and Best Copy and Printing, Inc. (BCPI), fcc@bcpiweb.com.

PAPER FILING:

Companies that choose to file by paper must file an original and four copies of each filing. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Marlene H. Dortch, Office of the Secretary, Federal Communications Commission, 445 12th Street, SW, Washington, DC 20554.

- 4. The Company ensures that it is in compliance with the FCC's CPNI regulations. The Company trains its personnel regarding when they are authorized to use CPNI, when they are not authorized to use CPNI, and how to safeguard CPNI. The Company maintains a CPNI Compliance Manual in its offices for purposes of training of new and current employees, and as a reference guide for all CPNI issues. Our CPNI Compliance Manual is updated to account for changes in law, including the FCC's most

recent changes to its regulations governing CPNI, adopted on March 13, 2007 in CC Docket No. 96-115. The CPNI Manual contains key all essential information and forms to ensure the Company's compliance with CPNI regulations.

These records include a description of each campaign, the specific CPNI that was used in the campaign, and the products and services that were offered as a part of the campaign. The Company maintains these records in its offices for a minimum of one year.
- 9. In deciding whether the contemplated use of the CPNI is proper, management consults one or more of the following: the Company's own compliance manual, the applicable FCC regulations, and, if necessary, legal counsel. The Company's sales personnel must obtain supervisory approval regarding any proposed use of CPNI.
- 10. Further, management oversees the use of opt-in, opt-out, or any other approval requirements, or notice requirements (such as notification to the Customer of the right to restrict use of, disclosure of, and access to CPNI), contained in the FCC's regulations. Management also reviews all notices required by the FCC regulations for compliance therewith. Before soliciting for approval of the use of a Customer's CPNI, the Company will notify the Customer of his or her right to restrict use of, disclosure of, and access to, his or her CPNI.
- 11. The Company maintains records of Customer approval and disapproval for use of CPNI in a readily-available location that is consulted on an as-needed basis.

OVERVIEW OF IDENTITY THEFT PREVENTION PROGRAM

The Company endeavors to detect, prevent and mitigate Identity Theft (1) in connection with the opening of a Covered Account, and (2) with respect to existing Covered Accounts.

The Company will—

- 1. Identify relevant Red Flags for the Covered Accounts that the Company offers or maintains (see Section 6);
- 2. Detect Red Flags (see Section 6);
- 3. Take appropriate action to prevent and mitigate any detected Red Flags (see Section 7); and
- 4. Periodically update this Manual to reflect changes in risks to Customers and to the safety and soundness of the Company from Identity Theft (see Section 8).

IDENTIFYING RED FLAGS

OPENING OF NEW ACCOUNTS

The Company has determined that a reasonably foreseeable risk of Identity Theft exists when prospective Customers seek to open new Accounts. The Company will therefore use reasonable measures to identify a person or entity that seeks to open a Covered Account.

This Section 6 therefore identifies Red Flags applicable to the opening of new Covered Accounts, and establishes the Company's method of detecting such Red Flags.

The Company will not provide any service for a Covered Account until it is able to reasonably identify the prospective Customer in accordance with this Section 6. If the Company detects a Red Flag during the process of opening a Covered Account, it will place the provision of service on hold until it can satisfactorily resolve the Red Flag.

IDENTIFYING RED FLAGS (CONT'D)

OPENING OF NEW ACCOUNTS (CONT'D)

- A. Opening of Covered Accounts for Personal, Family or Household Purposes.
 - Required Information: When a prospective Customer seeks to open a Covered Account for residential service (i.e., for personal, family or household purposes), the Company will ask for the following from the prospective Customer(s) listed on the Covered Account:
 - > name;
 - address;
 - birth date;
 - > social security number
 - > an unexpired government-issued identification bearing a photograph, such as a driver's license or passport, if the Customer is at the business office to open the account.

The Company will also encourage (but not require) Customers to establish passwords as a means of protecting against potential future Identity Theft.

The Company will encourage Customers who establish passwords not to use Readily Identifiable Biographical Information.

IDENTIFYING RED FLAGS (CONT'D)

 - > the prospective Customer is confirmed to be age 18 or older

IDENTIFYING RED FLAGS (CONT'D)

 - > misspellings
 - > a photo that does not resemble the prospective Customer
 - > inconsistencies in color, texture or images (such as erasures or smudges)
 - > raised edges around a photograph indicating the placement of a second photograph over an original photograph
 - > card wear inconsistent with date of issuance (such as an identification that appears new but bears an issuance date of many years)
 - c. The Company will create a record of the means used to verify a Customer's identity. The Company will retain such record until 5 years after the Account is closed. Upon disposal, the Company will completely destroy the record.

IDENTIFYING RED FLAGS (CONT'D)

OPENING OF NEW ACCOUNTS (CONT'D)

- > Articles of Incorporation or Articles of Limited Liability Company
- Partnership agreement

Partnerships using social security numbers and sole proprietorships may use the personal information of the sole proprietor or partners.

A business customer is defined as an end-user of services which is not a governmental or public entity.

These charges are typically customer-initiated from their home or relate to work the Company does on-site so there is little risk of identity theft.

IDENTIFYING RED FLAGS (CONT'D)

PROTECTION OF EXISTING ACCOUNTS

The Company has policies and procedures in place to safeguard customer proprietary network information (CPNI). The Company will continue to utilize its CPNI policies procedures as a safeguard against unauthorized access to Customer CPNI, including pre-texting. Pre-texting is the practice of obtaining call record detail and other CPNI under false pretenses. The Company also monitors suspicious transactions, and verifies change of address requests in accordance with its CPNI Compliance Manual.

The Company updates its Manual to account for changes in law, and it contains all essential information and forms to ensure the Company's compliance with CPNI regulations.

The Company will continue to follow its CPNI Compliance Manual as a means of preventing Identity Theft. The Company will also continue to improve its Identity Theft Prevention Program based on its experience with past incidents of Identity Theft, and new methods of committing Identity Theft of which it becomes aware.

The Company treats the following as Red Flags—

- Alerts, notifications, or other warnings from consumer reporting agencies or Service Providers;
- Suspicious address changes;
- > The unusual use of, or other suspicious activity related to, a covered Account; and
- ➤ Notice from Customers, victims of Identity Theft, law enforcement authorities, or other persons regarding possible Identity Theft in connection with a Covered Account.

PREVENTING AND MITIGATING IDENTITY THEFT

The Company will respond appropriately when it detects a Red Flag. In determining how to respond, the Company will consider aggravating factors that may heighten the risk of Identity Theft.

Appropriate responses include one or more of the following depending on the circumstances:

- Monitoring a Covered Account;
- ➤ Placing the provision of service on hold until it the Red Flag can satisfactorily be resolved;
- Requiring the Customer to come to the business office to present an unexpired government-issued identification bearing a photograph, such as a driver's license or passport;
- Adding a "Red Flag" warning on a Covered Account;
- Contacting the Customer;
- > Reopening a Covered Account with a new account number;
- Declining to open a Covered Account for a prospective Customer;
- Closing an existing Covered Account (in accordance with state regulatory rules, if applicable);
- Not collecting on a Covered Account; or
- Notifying law enforcement (see CPNI Compliance Manual).

UPDATING THE IDENTITY THEFT PREVENTION PROGRAM

The Company will update this Program periodically to reflect changes in risks to Customers or to the safety and soundness of the Company from Identity Theft.

In updating this Program, the Company will consider the following:

- > The Company's experiences with Identity Theft.
- Changes in methods with which Identity Theft is committed.
- > Changes in methods to detect, prevent, and mitigate Identity Theft.
- > Changes in the types of Accounts that the Company offers or maintains.
- ➤ Changes in the Company's business arrangements, such as mergers, acquisitions, alliances, joint ventures, and Service Provider arrangements.

ANNUAL REPORT

The Company will designate a person to be responsible for preparing an Annual Report to the Board of Directors, appropriate committee of the Board, or a designated senior-level manager.

The Annual Report will address at least the following:

- > The effectiveness of the Company's policies and procedures in addressing the risk of Identity Theft in connection with the opening of Covered Accounts.
- > The effectiveness of the Company's policies and procedures in addressing the risk of Identity Theft with respect to existing Covered Accounts.
- Arrangements with Service Providers.
- > Significant incidents involving Identity Theft and management's response.
- > Recommendations for material changes to the Company's Identity Theft Prevention Program.

The Annual Report will be in a format similar to that contained in Appendix 1.

SERVICE PROVIDERS

To the extent that the Company engages a Service Provider to perform an activity in connection with one or more Covered Accounts, the Company will ensure that the Service Provider has its own Identity Theft Prevention Program to detect and address Red Flags.

The Company is ultimately responsible for complying with Red Flag rules even if it outsources Account-related activity to a Service Provider.

SECTION 11

USE OF CONSUMER REPORTS

To the extent that the Company uses Consumer Reports in the opening of a new Covered Account, it will comply with this Section 11.

The Company will do one or more of the following to determine whether it has a reasonable belief that the Consumer Report relates to the prospective Customer about whom it has requested the report:

- ➤ Compare the information in the Consumer Report with information the Company uses to verify the prospective Customer's identity as outlined in Section 6.
- ➤ Compare the information in the Consumer Report provided by the consumer reporting agency with information the Company obtains from third-party sources.
- Verify with the prospective Customer.

The Company will not consider a Notice of Address Discrepancy as a Red Flag due to the nature of the telecommunications industry where services are provided at an immovable physical location. Prospective customers opening accounts are typically moving to a new address that would not yet be on file with a Consumer Reporting agency.

SECTION 12

DISCIPLINARY ACTION

Any failure to follow this Manual will result in appropriate disciplinary action in accordance with established Company disciplinary policies. Such failures shall be treated as a serious offense, and may result in suspension or termination of employment in appropriate cases. The Company will also require additional training to ensure future compliance.
